Fall Clean-Up in September!

Monday, September 28 to Friday, October 9, 2009

• All buildings and areas in your zone.

Fall Season: Best time to plant

Although we can plant any time, Fall is perhaps the best time to plant, as we can mimic what Mother Nature does in the natural landscape. When the growing season is over, seeds and fruits ripen, and plants prepare for dormancy. Although we can plant any time, Fall is perhaps the best time to plant, as we can mimic what Mother Nature does in the natural landscape. When the growing season is over, seeds and fruits ripen, and plants prepare for dormancy.

Fall Season: Best time to plant

• September is the best time to plant. Plants need time to grow and establish their root systems for the new growing season. To prepare existing perennials for the coming wet.

Fall Season: Best time to plant

If you are planning to plant bulbs this is the time. By next spring you will have beautiful flowers:

Fall Season: Best time to plant

Finally, one of the most beautiful features of fall is the show. Among them are: Ginkgo biloba, Nyssa sylvatica, and palmatum, to name a few.

Fall Season: Best time to plant

You play a key role in:

Building Manager’s Meeting

Periodic Custodial Schedule for 2010

You can see the Pistaches in full velutina, to name a few. The same principle applies to wildflowers. Sow seeds in the soil and they will be ready to identify service days for specific.

Fall Season: Best time to plant

A number of noteworthy trees will be available for transfer to the main campus.

Fall Season: Best time to plant

As leaves drop to the ground and natural regeneration begins again with the coming of a new growing season. To prepare existing perennials for the coming wet.
